

# SPONSOR FILES

Basically, a sponsor file is a tool that helps you to persuade companies to finance your business. SMS-Timing's sponsorship service goes further than just that.

The file we create will not only play on your potential sponsor's feelings, but completely convince them to sign the contract! It will show them with simple calculations that everyone can understand how their investment will be profitable.

It is also possible to have your brochure designed by the SMS-Timing design team.

## NO PROBLEMS, ONLY SOLUTIONS.

*"What should my sponsor file include?"*

→ We create a very attractive file that highlights all your means of communication with their benefits for potential sponsors.

*"I don't have time to create a brochure with prices and printing companies don't really know my business"*

→ Our creative team can do it for you! We can design a brochure to present your center or even a whole magazine if you need more space. Even this magazine can contain sponsors' logos.

## ADVANTAGES

- We strongly assist you in convincing sponsors
- Your karting and all your means of communication are professionally presented
- Make sponsoring tangible
- Having your brochure or magazine improves your communication towards customers and sponsors
