The e-mailing still offers the best Return On Investment amongst all online marketing techniques.

Our software customers can benefit from our e-mailing platform.

We strongly advise you to segment your database and to send the right email to the right person.

You can count on our team to make your e-mailings a success!

NO PROBLEMS, ONLY SOLUTIONS.

"I would like to organize an endurance race for my best drivers."

→ We will target the drivers who drive between two given lap times and send them the special invitation.

"I want to stimulate the customers I did not see for a long time."

→ We advise you to reach out to the people who did not visit your track for at least 6 months. Make them a special offer to spark their interest.

ADVANTAGES

- Our platform guarantees a high delivery rate
- Several extras can be added: personalization per recipient ('Dear [name]'), accurate statistics reports, invalid e-mail addresses imported into FAST, spam-check, dynamic campaigns
- Profit from our e-mailing know-how: design, technical advice and marketing
- Thanks to free credits, you can send a large part of your e-mailings without costs
